One good example is the color of USB ports and connectors, which are most often either blue or black. A quick rule of thumb is that blue signifies a faster connection than black. But to fully understand the significance of the colors (you may also run into white, yellow, orange or red USB connectors and ports at times), we have to dig a bit deeper into the history and specifications of USB connections.

What's The Difference Between The Blue And Black USB Ports?

Black and Blue | The recent killings in Dallas, Baton Rouge, Ferguson, and elsewhere are just the latest examples of the longstanding rift between law enforcement and people of color. In this revealing journey to the heart of a growing crisis, CBS News Justice and Homeland Security Correspondent Jeff Pegues provides unbiased facts, statistics, and perspectives from both sides of the community-police divide.

A black eye causes swelling and black-and-blue discoloration of the eyelids and soft tissues around the eye. Sometimes, trauma that results in a black eye also causes small areas of bleeding on the white of the eye and on the inner lining of the eyelids. If you have bright-red or dark-red discoloration of your eyeball, you have another problem.
