Some of the details vary from the
Roadster carbs but the overall principles
are the same. Of particular interest is

Acces PDF Datsun Roadster Tuning Guide

the chart for setting the mixture knob for altitude and temperature. Also, for this carb they recommend 20w oil, the roadster uses 10w. And that pretty much covers adjusting the SU carbs on a Datsun Roadster.

Datsun only built 1,000 examples of the 2000 Roadster for the 1967½ model year before making a host of changes to meet federal emissions and safety standards. In addition to no longer having the Solex-carb hop-up option available, the classic flat dash gave way to a molded and padded affair and the
