remains the application of truth derived from somewhere else, and qualitative research becomes a tool used in such application. The authors certainly offer a workable model with its own virtues, but they do not achieve the stated goal of integrating the two disciplines in a way that protects the integrity of each.

The authors examine the relationship between qualitative and quantitative methods and highlight the significance of both for the task of practical theology. They also take the reader through the actual process of developing and carrying out a research project using the author's own research as case study

disciplines in qualitative research integrate the meaning of “interdisciplinary” when working with theological studies. Certainly practical theology has spent considerable energy in general wrestling (maybe even rescuing in some perspectives) theological disciplines from being overwhelmed or subsumed entirely by the human sciences.
