Via The As If Technique In 60 Seconds Or Less: A Revolutionary

One can: - right click a component that has subcomponents and 'Save as STL' all their bodies . This does, however, bring in bodies that were not necessarily wanted. In my design (below) I've created the frame from three different components and 6 bodies altogether. I would like these to be treated "as one".

Tsar Bomba - Wikipedia

The purpose of a spinal fusion, on the other hand, is to stop movement. A one-level fusion removes the disc between two vertebrae and uses screws and other hardware to force the two vertebrae together, which then fuse into one structure. A two-level fuses three vertebrae, three-level fuses four
